B
alignment = “leaves”
only leaves are observed
alignment = “nodes”
leaves and internal nodes are observed
alignment = “subset”
a subset of leaves and internal nodes are observed
C
allow_overlap = False
multiple trees, disjoint observations
allow_overlap = True
multiple trees, same observations
NJ
UPGMA
D
pycea.pl.branches
branches colored by length
pycea.pl.nodes
Add nodes colored by cluster
pycea.pl.nodes
Add a single highlighted node
pycea.pl.annotation
Add gene expression at the leaves
